I declare that this survey complies with the North Carolina Standards of Practice for Surveying (section . 1600) for class A surveys and that the calculated ratio of precision before adjustments is 10,000+. Furthermore, building corners shown are primary control monumentation for the reestablishment of property corners in the absence of grid monuments and other subdivision property corners. This survey is not to be recorded without the written authorization of the surveyor. This map remains the property of the surveyor and is to be used only for conveyance of this lot to the person(s) shown on this map.
